

Toshiba Satellite S55T-B5335 Bottom Cover Replacement

This guide will walk you through the process of removing the bottom cover from the Toshiba Satellite S55T-B5335.

Written By: George Gillespie

INTRODUCTION

The bottom cover will need to be removed in order to access replaceable parts inside of the laptop. This is a simple process that requires the removal of ten easily removed screws in addition to the battery removal.

TOOLS:

- [Phillips #1 Screwdriver](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Battery

- Remove the two 7 mm Phillips #1 screws that hold the battery in place.

Step 2

- Pull the battery from laptop.

Step 3 — Bottom Cover

- Remove the ten 7 mm Phillips #1 screws that secure the back cover.

Step 4

- Wedge the tip of a plastic opening tool between the back cover and the metal frame.
- Twist the plastic opening tool, while wedged, in order to release the retaining tabs from the frame.
- Repeat these steps in a circular pattern around the laptop to release all retaining tabs.

Step 5

- Once all retaining tabs are released from the frame, you can pull up on the back cover to remove it.

To reassemble your device, follow these instructions in reverse order.
